

Great Opportunity in the Erie Area!

Plastics Processing Specialist – 3rd Shift

Matrix Tool, Inc. is a custom full service manufacturing operation located in Fairview, PA. We specialize in the design and construction of high precision plastic and metal injection molds and the molding of tight tolerance plastic injection molded components. The primary markets we serve include the automotive industry, the computer / electronic device industry, the general appliance / consumer products market, and the medical / pharmaceutical device industry. We operate in a state of the art facility and employ approximately 150 staff members capable of offering solutions to our customer's toughest tooling and molding challenges. See www.matrixtoolinc.com for additional information about the organization.

We are seeking a Plastics Processing Specialist to assist with the coordination of production activities on 3rd shift. Primary duties include: setting cavity units and injection molds; starting up injection molding machines for new molds using scientific molding techniques; working with QA staff to obtain approved production parts; monitoring processing activities to ensure optimum cycle times; troubleshooting processes as necessary to eliminate process related problems; providing guidance and instruction to production personnel; and assisting with the support of production related activities (such as basic part inspection, continuous improvement projects, etc.) as needed/assigned throughout the shift.

Interested candidates should have at least 12 months processing experience in an injection molding environment and be familiar with processing techniques related to precision plastic injection molding. Candidates should also possess knowledge of processing theory and scientific molding techniques, knowledge of engineered resins and have a working knowledge of mold setup and startup procedures. A bachelor's degree and/or coursework in Plastics Engineering is helpful and basic computer skills are necessary. A take charge attitude with sound decision making abilities, independent work ethic and solid written / oral communication skills are also required. In addition, the position will require an individual who is organized and able to manage his/her time to meet production schedules in a systems driven environment. The ability to cooperate with others and work as a member of a team in a dynamic and fast paced work environment is essential.

Matrix Tool, Inc. offers challenging work, a state-of-the art work environment and a competitive pay and benefits compensation package. Interested candidates should apply using one of the following methods:

1. Email a cover letter and resume to hr@matrixtoolinc.com
2. Fax a cover letter and resume to us at 814-474-1001, Attention: HR
3. Stop in at our Front Office (4976 Franklin Road, Fairview, PA) and drop off a resume or fill out an application between the hours of 8:00 AM and 3:30 PM.
