

## INJECTION MOLDING SUPPLIER RECOGNIZED FOR EXCELLENT QUALITY & SERVICE 3 YEARS IN A ROW!

Matrix Tool was pleased to receive a “2021 Supplier Outstanding Performance Award” earlier this month, presented to us from our largest customer. The award is only given to strategic suppliers that obtain exceptional scorecard ratings on the metrics of service, delivery, quality and support each month over an entire calendar year. Given the challenges that have continued to affect manufacturers since the beginning of the pandemic, we could not be prouder of the organizational accomplishment we have achieved!

This is now the 3<sup>rd</sup> straight year Matrix Tool has been recognized for excellent quality and service, receiving the award from the same customer in [2019](#) & in [2020](#)!

“We are very pleased and honored to receive this award as it’s always gratifying to be recognized by your customers for our hard work and efforts. Receiving this award during one of the most challenging manufacturing environments makes this all the more appreciated by our group; especially since it represents Matrix’s continued commitment to excellence and superior service” said Dave Moyak, General Manager of the Molding Division at Matrix Tool.

Tim Lewis, President of Matrix Tool, stated “The effort required to provide our customer with consistent and exceptional quality performance is a testament to the extraordinary team we have here at Matrix Tool. Thank you to all of the Matrix team members for the consistent dedication and commitment to our customers’ requirements.”
