

MATRIX TOOL INC.
ADVANCED MOLDING AND TOOLING

Matrix Tool Receives 2022 Outstanding Performance Supplier Award

Matrix Tool, Inc., a full-service injection mold building and molding company, was honored to receive a 2022 Supplier Outstanding Performance Award earlier this month. The award was presented to us by our largest customer. This is now the 4th consecutive year Matrix has been recognized for this outstanding organizational achievement.

This award is only presented to strategic suppliers that obtain exceptional ratings on the metrics of service, delivery, quality and support each month over an entire calendar year.

“It’s a great honor to be selected as a top supplier for the 4th consecutive year by one of our customers. At the same time, quality and superior performance doesn’t just happen – it’s the result of everyone’s combined effort to execute our work responsibilities each and every day. We appreciate everyone’s contribution during the 2022 year to ensure the needs of our customer were met on a consistent basis! Our most valuable asset at Matrix has always been our dedicated team members and this is just another example of them being recognized for what they do best.”
said Tim Lewis, President of Matrix Tool.
